Siltronic RiFS Schedule.pdf

Sean,

The attached project schedule is for a proposal to complete the upland RI for MGP wastes. It is not source control related. I do not have an electronic schedule for source control of the Siltronic TCE plume. The existing TCE schedule is out of date and it will be revised based on the results of ongoing groundwater field pilot scheduled for completion spring 07.

Matt

Subject: Siltronic Portion of Schedule

Matt –

Matt on Sep. 8 I emailed you the Gasco schedule. This email follows up with Siltronic portion of the schedule. As you will note, we would like to determine later dates in this schedule as a part of the process of developing the Scoping document. Please let me know if you have any questions on either schedule or would like to discuss. Thanks.

Carl
